SAI RAM PONNALA

JAVA DEVELOPER | JAVA FULL STACK DEVELOPER

Java | Spring Boot | Microservices | REST APIs | React.js | Next.js | SQL | MySQL | AWS

Hyderabad, India | +91-9705147071 | sairamponnala7@gmail.com

PROFESSIONAL SUMMARY

Java Developer / Java Full Stack Developer with **2 years 10 months of professional experience** developing, enhancing, debugging, and supporting enterprise web applications. Strong hands-on experience with **Java, Spring Boot, Microservices, REST APIs, React.js, Next.js, JavaScript, SQL, MySQL, and AWS**. Experienced in backend service development, business logic, API integration, database operations, authentication and authorization, frontend integration, application troubleshooting, CI/CD, cloud deployment, and production support. Experienced in Agile/Scrum environments and full software development lifecycle activities including development, testing, code reviews, defect resolution, deployment, and release support.

TECHNICAL SKILLS

Programming:	Java, JavaScript, SQL
Backend:	Java, Spring Boot, Spring Security, REST APIs, Microservices, Business Logic, Exception Handling
Frontend:	React.js, Next.js, JavaScript, HTML5, CSS3
Database:	MySQL, SQL, Relational Data Modeling, Query Optimization
Cloud:	AWS EC2, API Gateway, RDS, S3
DevOps:	Git, GitHub, Jenkins, GitHub Actions, Maven, Docker, CI/CD
Engineering:	Debugging, Root-Cause Analysis, Production Support, Code Reviews, Agile/Scrum

PROFESSIONAL EXPERIENCE

FE fundinfo | Web Data Collection Analyst | Sep 2025 – Feb 2026

Project: Asset Managers – Web Data Collection

- Developed JavaScript-based automation workflows for collecting, processing, validating, and structuring web data.
- Automated authentication, pagination, dynamic-content extraction, and repeatable web data collection workflows.
- Performed SQL-based data validation, reconciliation, transformation, and quality checks to maintain data accuracy.
- Investigated extraction failures, processing errors, and data inconsistencies to improve workflow reliability.
- Supported structured data preparation for downstream systems, reporting, and business analysis.

People Tech Group | Associate Software Engineer | Sep 2023 – Nov 2024

Project: ABB

- Developed and enhanced enterprise web applications using Java, Spring Boot, REST APIs, Microservices, React.js, Next.js, and MySQL.
- Developed RESTful backend services implementing business logic, validations, exception handling, and reusable application components.
- Integrated React.js and Next.js frontend components with Spring Boot REST APIs for end-to-end application functionality.
- Designed SQL queries and implemented MySQL database operations for application workflows and efficient data retrieval.
- Implemented authentication and authorization using Spring Security and JWT for secured application resources.
- Worked with AWS EC2, API Gateway, RDS, and S3 for application deployment, API integration, and data storage.
- Used Git, Maven, Jenkins, GitHub Actions, and Docker for source control, builds, CI/CD, and deployment workflows.
- Investigated application defects and production issues, performed root-cause analysis, and supported defect resolution.
- Participated in Agile/Scrum ceremonies, sprint planning, estimation, testing, code reviews, deployments, and release activities.

OSI Digital | Project Software Engineer | Jun 2022 – Sep 2023

Project: Pryme / OSI Digital In-house Applications

- Developed and enhanced enterprise applications using Java, Spring Boot, REST APIs, Microservices, React.js, and MySQL.
- Implemented backend services, business logic, validations, API integrations, and reusable application components.
- Developed and integrated REST APIs with frontend applications to support end-to-end business workflows.
- Created and optimized SQL queries and database operations for application functionality and efficient data retrieval.
- Performed application debugging, defect resolution, API troubleshooting, and production-support activities.
- Supported Git-based development, Maven builds, CI/CD pipelines, application deployments, and release troubleshooting.
- Collaborated with team members in Agile/Scrum development, testing, code reviews, and sprint activities.

EDUCATION

M.Tech – Software Engineering | KITS(W)

CERTIFICATION

AWS Certified Solutions Architect – Associate
